Monthly Updates

Met with two open nuisance cases in regards to the pre-prosecution diversion program

Ordinances for 2018 model code adoption and amendments approved by BOCC

Sent ordinance updates to ISO for completion of 5-year review. Received formal notification that our ISO Rating will remain a two (2). This was a lot of hard work by our team and very difficult to remain at that low of a rating. But they did it!

Pete, Tracy, Ashley, Joe and Sarah all attended a week long ICC training in Sacramento for various course work. These classes are difficult and I am proud of them getting through all of the training.

Pete, Ashley and Patty attended a confined space awareness course.

With the adoption of the 2018 model codes we have updated our residential customer guideline, commercial customer guideline and model code documents. All placed on website.

Continuing to work with the County Manager, Comptroller and District Attorney's Office in regards to updating fee schedules into a single resolution and business license process.

Joe Starnes was accepted into the National Fire Academy to attend Principles of Fire Inspections. He has been there for the last week. Tremndous honor to be accepted.
