Residential	60
Trailer	16
Monthly Updates	
Walked thru Piper's Cottage with Highlands Electric and Lighting. Work to begin shortly.	
Put many hours into reconciling permits for the year end. We closed 49 permits this month.	
Pete Renaud qualified thru training to become reclassified to a Senior Building Inspector. This is a significant accomplishment and has required numerous training courses and additional certifications through the International Code Council. Congratulations to Pete on this accomplishment.	
Attended a meeting at EDawn for a new potential company looking at the TRIC. This would be for manufacturing and storage of specific products. The footprint would be around 200,000 to 250,000 square feet. An NDA has been signed and that is all that can be released.	
Met with Silver Flume business licensing team to review last years launch. Several areas of improvement and expansion are required before this will work for our needs.	
Met with Fulcrum to review their site civil and fire protection plans. They are at 90% completion and will be submitted in the first quarter of 2019. This project is moving along well. They are also expanding their feedstock facility at 350 Saddlecourt.
