### **\*\*MUST Call for Reconnection\*\***

Standby is an option only if the property will be vacant and there will be no water usage during the time the account is on standby.

If at any time, during the standby period, the meter shows water usage, the account will be removed from standby and all regular fees for that month will be applied.

While on standby, the account holder is responsible for paying the bill each and every month in a timely manner.

The discounted rates while on standby are equal to half the monthly minimum usage charge for water and sewer, plus the regular monthly fees for water surcharge and sewer cap.

In addition, there will be a \$60 reconnection fee payable at time of reconnect.

**\*\*Please note that this option WILL NOT be advantageous unless the property is to be placed on standby for a minimum of 3 months.**

By signing this disconnection request, account holder agrees to observe any regulations now or hereafter adopted related to the water service and to pay bills promptly.
